

TARGET AUDIENCE

All nurses, particularly those working in outpatient practice areas, offices, and professionals working in care coordination roles and any ambulatory health setting.

PURPOSE

To understand the impact and role of nursing in transitions of care.

OBJECTIVES

- Describe at least two aspects of leadership that are unique to ambulatory based nursing.
- Illustrate the challenges faced by consumers in coordinating care and managing transitions across multiple Ambulatory settings.
- Identify nursing contributions to improving quality and reducing costs in accountable models of care.
- Highlight components of the Patient Centered Medical Home.
- Demonstrate current trends to measure the effectiveness of a navigation program.
